

New Members Needed Year Around

November is Membership Month for the Oregon Small Woodlands Association. Your CCFFA Chapter thought it would be a good time to remind our members of the important part you can play in the viability of our chapter.

The membership committee wants to thank CCFFA member Loren

Bowman for successfully recruiting three new members in the past few months and you can do the same. Talk to those family members, friends, and neighbors with timberlands, big or small, who may have the same interests in improving the management of their woodlands. If you feel more comfortable having another

member, board member, or one on the membership committee make contact with a potential new member, please let us know.

While November may be Membership Month, gaining new members is a year around effort. As members, you are the best recruiters out there. ■

Jim Schreiber,
Membership Committee Chair
