**DEREK CRAVEN**

**C**CCFFA is always looking to gain exposure in the community. This summer we were approached by the Estacada Timber Festival to host a booth at their July 4th event. The CCFFA board decided to proceed so Jim Schreiber took the lead on planning the event. He handled all the details from the insurance requirements all the way down to coordinat-

ing set-up and take-down of our booth.

CCFFA was able to staff the event from open to close with board members. We were able to connect and spread what we do with quite a few of the local tree farmers in the Estacada area. I'm not sure if we got any new members out of the event but we planted some seeds with a handful of people.

Along with watching the timber events we also were able to spend some time with other vendors, one of them being Oregon Chain. Thanks to Larry Stone—he was able to set up a tour of their facility in Milwaukie.

Please see our website for details regarding the Oregon Chain tour.

I would like to thank Jim Schreiber, Tim Dahl, Barry Sims, and Larry and Jane Stone for all their help. It takes a lot of work and time to pull off these types of events. If you have any ideas for local events that would fit CCFFA's purpose, please let me know, it might be successful for CCFFA and the community. ■
